Dot2 XL-F

The dot2 XL-F is a compact lighting console designed for small to medium sized productions up to 4,096 control channels. Intuitive operation is the core of the dot2 philosophy and with a comprehensive set of connectivity hardware on all console models, the dot2 range is suitable for most theatre, touring, corporate, television and education lighting environments.

Still with a small footprint it includes the full programming section, master playback section, 14 fader playbacks and 28 individual playback buttons. Three built in touch screens and support for one external touch screen ensure the dot2 XL-F has the flexible hardware required for almost any kind of show.

SGM launches the much-anticipated G-4 Wash

SGM releases a new addition to G-range of moving heads. The G-4 Wash is a lightweight and compact high-power Fresnel wash light with superb color mixing and very low power consumption.

Equipped with a Fresnel lens, the G-4's optical system is designed to deliver a staggering output for a fixture with such a small footprint, and equally perfect color mixing with a completely even field with no hotspot.

The durable, IP65-rated exterior of G-4 Wash and the built-in dehumidifier ensure that the fixture is kept free of externally induced impact on internal optics and light source unit, such as smoke fluid, dust and dirt.

The G-4 wash can be remotely configured, controlled and monitored via RDM. Built on a foundation of thoroughly tested technology, the G-4 Wash is a robust and highly reliable fixture.
