

NEW Pandoras Box Product Structure

launched on May 2nd 2016 with Pandoras Box version 5.10

With the integration into Christie we are pleased to announce a new and simplified Pandoras Box product structure. In this new structure the software features of the servers have been unified. All Pandoras Box Servers sold from now on will include the Server PRO features.

The same applies to the software edition of Pandoras Box Player. All Pandoras Box Players sold from now on will include the Player PRO features.

	Server	Player	Compact Player****	Software Player
